WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office

To be purchased through any Bookseller or directly from
THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN 1.

No. 1 VOL. C4. WEEK ENDED SATURDAY, 7th JANUARY, 1967. PRICE 2d. NET.

PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10,000 population, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

The number of births registered during the week to persons normally residing in the principal towns was 381:- 209 boys and 172 girls.

The number of deaths registered of persons normally residing in the principal towns was 201. Of these deaths 33 were due to malignant neoplasms, 1 to tuberculosis and 1 to influenza. There were 3 transport accidents.

Among the deaths of infants under one year 1 was due to congenital malformation, 3 to pneumonia, 3 to prematurity, 1 to atelectasis and 3 to hyaline membrane disease.

The total number of births registered during the week in the principal towns was 758:- 398 boys and 360 girls, of which 217 boys and 184 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 290 of which 146 were registered in Dublin County Borough.

TABLE 1.- Births and Deaths registered during the week ended Saturday, 7th January, 1967 which were assigned to the Principal Towns with similar particulars for Belfast and Derry.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office

To be purchased through any Bookseller or directly from
THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN 1.

No. 4 VOL. C4. WEEK ENDED SATURDAY, 28th JANUARY, 1967. PRICE 2d. NET.

PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10,000 population, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

The number of births registered during the week to persons normally residing in the principal towns was 340:- 177 boys and 163 girls.

The number of deaths registered of persons normally residing in the principal towns was 186. Of these deaths 39 were due to malignant neoplasms, 2 to tuberculosis and 1 to influenza. There was 1 transport accident.

Among the deaths of infants under one year 4 were due to congenital malformation, 3 to congenital heart disease, 2 to pneumonia, 1 to gastro-enteritis and 1 to atelectasis.

The total number of births registered during the week in the principal towns was 715:- 373 boys and 342 girls, of which 178 boys and 166 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 298 of which 132 were registered in Dublin County Borough.

TABLE 1. - Births and Deaths registered during the week ended Saturday, 28th January, 1967, which were assigned to the Principal Towns with similar particulars for Belfast and Derry.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office

To be purchased through any Bookseller or directly from
THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN 1.

No. 7 VOL. C4. WEEK ENDED SATURDAY, 18th FEBRUARY, 1967. PRICE 2d. NET.

PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10,000 population, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

The number of births registered during the week to persons normally residing in the principal towns was 453:- 237 boys and 216 girls.

The number of deaths registered of persons normally residing in the principal towns was 190. Of these deaths 35 were due to malignant neoplasms and 2 to tuberculosis. There were 5 transport accidents.

Among the deaths of infants under one year 5 were due to congenital malformation, 4 to pneumonia, 2 to prematurity, and 1 each to gastro-enteritis, hyaline membrane disease and birth injury.

The total number of births registered during the week in the principal towns was 947:- 483 boys and 464 girls, of which 210 boys and 196 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 304 of which 153 were registered in Dublin County Borough.

TABLE I. - Births and Deaths registered during the week ended Saturday, 18th February, 1967, which were assigned to the Principal Towns with similar particulars for Belfast and Derry.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office

To be purchased through any Bookseller or directly from
THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN 1.

No. 10 VOL. C4. WEEK ENDED SATURDAY, 11th MARCH, 1967. PRICE 2d. NET.

PRINCIPAL TOWNS

Particulars of births and deaths recorded for the Principal Towns, i.e. the fourteen towns of over 10,000 population, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

The number of births registered during the week to persons normally residing in the principal towns was 490:- 249 boys and 241 girls.

The number of deaths registered of persons normally residing in the principal towns was 189. Of these deaths 28 were due to malignant neoplasms and 3 to tuberculosis. There was one accidental drowning and 4 transport accidents.

Among the deaths of infants under one year 5 were due to congenital malformation, 2 to pneumonia, 2 to birth injury and one each to atelectasis, prematurity and gastro-enteritis.

The total number of births registered during the week in the principal towns was 978:- 479 boys and 499 girls, of which 241 boys and 230 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 206 of which 136 were registered in Dublin County Borough.

TABLE 1. - Births and Deaths registered during the week ended Saturday, 11th March 1967 which were assigned to the Principal Towns with similar particulars for Belfast and Derry.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office

To be purchased through any Bookseller or directly from
THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN 1.

No. 13 VOL. C4. WEEK ENDED SATURDAY, 1st APRIL, 1967. PRICE 2d. NET.

PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10,000 population, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

The number of births registered during the week to persons normally residing in the principal towns was 268:- 130 boys and 138 girls.

The number of deaths registered of persons normally residing in the principal towns was 187. Of these deaths 27 were due to malignant neoplasms and 3 to tuberculosis. There was 1 transport accident.

Among the deaths of infants under 1 year 2 were due to congenital malformation and 1 to gastro-enteritis.

The total number of births registered during the week in the principal towns was 615:- 301 boys and 314 girls, of which 92 boys and 128 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 298 of which 110 were registered in Dublin County Borough.

TABLE 1 - Births and Deaths registered during the week ended Saturday, 1st April 1967, which were assigned to the Principal Towns with similar particulars for Belfast and Derry.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office

To be purchased through any Bookseller or directly from
THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN 1.

No. 16 VOL. C4. WEEK ENDED SATURDAY, 22nd APRIL, 1967. PRICE 2d. NET.

PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10,000 population, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

The number of births registered during the week to persons normally residing in the principal towns was 507:- 258 boys and 249 girls.

The number of deaths registered of persons normally residing in the principal towns was 182. Of these deaths 38 were due to malignant neoplasms and 3 to tuberculosis. There was 1 death due to burns.

Among the deaths of infants under 1 year 2 were due to congenital malformation and one each to gastro-enteritis, pneumonia, atelectasis and congenital heart disease.

The total number of births registered during the week in the principal towns was 1,027:- 527 boys and 500 girls, of which 258 boys and 257 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 331 of which 144 were registered in Dublin County Borough.

Table 1 - Births and Deaths registered during the week ended Saturday, 22nd April 1967, which were assigned to the Principal Towns with similar particulars for Belfast and Derry.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office

To be purchased through any Bookseller or directly from
THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN 1.

NO. 19 VOL. C4. WEEK ENDED SATURDAY 13th MAY, 1967. PRICE 2d.NET.

PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10,000 population, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

The number of births registered during the week to persons normally residing in the principal towns was 576:- 298 boys and 278 girls.

The number of deaths registered of persons normally residing in the principal towns was 145. Of these deaths 37 were due to malignant neoplasms and 4 to tuberculosis. There were 2 transport accidents and 1 drowning.

Among the deaths of infants under 1 year 2 were due to gastro-enteritis and one each to congenital heart disease, atelectasis and birth injury.

The total number of births registered during the week in the principal towns was 1,022:- 505 boys and 517 girls, of which 291 boys and 316 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 221 of which 111 were registered in Dublin County Borough.

Table 1 - Births and Deaths registered during the week ended Saturday 13th May, 1967, which were assigned to the Principal Towns with similar particulars for Belfast and Derry.

PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10,000 population, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

The number of births registered during the week to persons normally residing in the principal towns was 404:- 198 boys and 206 girls.

The number of deaths registered of persons normally residing in the principal towns was 183. Of these deaths 28 were due to malignant neoplasms and 3 to tuberculosis. There were 2 transport accidents.

Among the deaths of infants under 1 year 6 were due to congenital malformation, 2 to gastro-enteritis and one each to prematurity, bronchopneumonia and congenital heart disease.

The total number of births registered during the week in the principal towns was 740:- 366 boys and 374 girls, of which 230 boys and 236 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 292 of which 146 were registered in Dublin County Borough.

Table 1. - Births and Deaths registered during the week ended Saturday, 3rd June, 1967, which were assigned to the Principal Towns with similar particulars for Belfast and Derry.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office

To be purchased through any Bookseller or directly from
THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN 1.

No. 25 VOL. C4 WEEK ENDED SATURDAY 24th JUNE, 1967. PRICE 2d. NET.

PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10,000 population are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

The number of births registered during the week to persons normally residing in the principal towns was 363:- 184 boys and 179 girls.

The number of deaths registered of persons normally residing in the principal towns was 172. Of these deaths 37 were due to malignant neoplasms and 5 to tuberculosis.

Among the deaths of infants under 1 year 5 were due to congenital malformation, 4 to atelectasis, 2 to pneumonia and one each to gastro-enteritis, whooping cough and prematurity.

The total number of births registered during the week in the principal towns was 808:- 411 boys and 397 girls, of which 155 boys and 148 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 285 of which 146 were registered in Dublin County Borough.

TABLE 1 - Births and Deaths registered during the week ended Saturday, 24th June 1967, which were assigned to the Principal Towns with similar particulars for Belfast and Derry.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office

To be purchased through any Bookseller or directly from
THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN 1.

No. 28 VOL. C4 WEEK ENDED SATURDAY 15th JULY, 1967. PRICE 2d. NET.

PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10,000 population are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

The number of births registered during the week to persons normally residing in the principal towns was 252:- 123 boys and 129 girls.

The number of deaths registered of persons normally residing in the principal towns was 160. Of these deaths 20 were due to malignant neoplasms and 2 to tuberculosis. There was one transport accident.

Among the deaths of infants under 1 year 5 were due to gastro-enteritis, 5 to congenital malformation, 2 to prematurity and one to bronchopneumonia.

The total number of births registered during the week in the principal towns was 564:- 274 boys and 290 girls; of which 141 boys and 145 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 257 of which 128 were registered in Dublin County Borough.

Table 1 - Births and Deaths registered during the week ended Saturday, 15th July 1967 which were assigned to the Principal Towns with similar particulars for Belfast and Derry.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office

To be purchased through any Bookseller or directly from
THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN 1.

No. 31 VOL. C4 WEEK ENDED SATURDAY 5th AUGUST, 1967. PRICE 2d. NET.

PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10,000 population are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

The number of births registered during the week to persons normally residing in the principal towns was 545:– 285 boys and 260 girls.

The number of deaths registered of persons normally residing in the principal towns was 165. Of these deaths 26 were due to malignant neoplasms and 1 to tuberculosis. There was one transport and one drowning accident.

Among the deaths of infants under 1 year 6 were due to congenital malformation, 4 to prematurity and 3 to birth injury.

The total number of births registered during the week in the principal towns was 1,148:– 613 boys and 535 girls; of which 201 boys and 188 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 272 of which 118 were registered in Dublin County Borough.

Table 1 - Births and Deaths registered during the week ended Saturday, 5th August 1967 which were assigned to the Principal Towns with similar particulars for Belfast and Derry.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office

To be purchased through any Bookseller or directly from
THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN 1.

No. 34 VOL. C4 WEEK ENDED SATURDAY 26th AUGUST, 1967. PRICE 2d. NET.

PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10,000 population are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

The number of births registered during the week to persons normally residing in the principal towns was 352:- 182 boys and 170 girls.

The number of deaths registered of persons normally residing in the principal towns was 179. Of these deaths 31 were due to malignant neoplasms. There were two transport and one drowning accidents.

Among the deaths of infants under 1 year 3 were due to congenital malformation, 3 to prematurity, 3 to congenital heart disease, 2 to gastro-enteritis and 1 to pneumonia.

The total number of births registered during the week in the principal towns was 785:- 399 boys and 386 girls; of which 184 boys and 169 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 304 of which 126 were registered in Dublin County Borough.

Table 1 - Births and Deaths registered during the week ended Saturday, 26th August 1967 which were assigned to the Principal Towns with similar particulars for Belfast and Derry.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office

To be purchased through any Bookseller or directly from
THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN 1.

No. 37 VOL. C4 WEEK ENDED SATURDAY 16th SEPTEMBER, 1967. PRICE 2d. NET.

PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns of over 10,000 population are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

The number of births registered during the week to persons normally residing in the principal towns was 419:– 225 boys and 194 girls.

The number of deaths registered of persons normally residing in the principal towns was 173. Of these deaths 31 were due to malignant neoplasms, and 3 to tuberculosis.

Among the deaths of infants under 1 year 4 were due to congenital heart disease, 2 to birth injury and 1 to atelectasis.

The total number of births registered during the week in the principal towns was 856:– 450 boys and 406 girls; of which 231 boys and 215 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 265 of which 136 were registered in Dublin County Borough.

Table 1 - Births and Deaths registered during the week ended Saturday, 16th September 1967, which were assigned to the Principal Towns with similar particulars for Belfast and Derry.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office

To be purchased through any Bookseller or directly from
THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN 1.

No. 40. VOL. C4. WEEK ENDED SATURDAY, 7th OCTOBER, 1967. PRICE 2d. NET.

PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns which had populations of over 10,000 at the date of the 1966 Census, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

The number of births registered during the week to persons normally residing in the principal towns was 411:– 205 boys and 206 girls.

The number of deaths registered of persons normally residing in the principal towns was 169, of which 112 were over 65 years. Of these deaths 40 were due to malignant neoplasms and one to tuberculosis. Transport accidents caused 2 deaths.

There were 15 deaths of infants under one year registered; of these 13 were under 7 days.

The total number of births registered during the week in the principal towns was 832:– 432 boys and 400 girls, of which 224 boys and 205 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 239, of which 136 were registered in Dublin County Borough.

TABLE 1 - Births and Deaths registered during the week ended Saturday, 7th October 1967, which were assigned to the Principal Towns with similar particulars for Belfast and Derry.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office

To be purchased through any Bookseller or directly from
THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN 1.

No. 43 VOL. C4. WEEK ENDED SATURDAY, 28th OCTOBER, 1967. PRICE 2d. NET.

PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns which had populations of over 10,000 at the date of the 1966 Census, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

The number of births registered during the week to persons normally residing in the principal towns was 439:- 212 boys and 227 girls.

The number of deaths registered of persons normally residing in the principal towns was 201, of which 138 were over 65 years. Of these deaths 35 were due to malignant neoplasms and 3 to tuberculosis. Transport accidents caused 6 deaths.

There were 10 deaths of infants under one year registered; of these 6 were under 7 days and 2 from 7 to 27 days.

The total number of births registered during the week in the principal towns was 862:- 439 boys and 423 girls, of which 174 boys and 201 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 287, of which 146 were registered in Dublin County Borough.

TABLE 1 - Births and Deaths registered during the week ended Saturday, 28th October 1967, which were assigned to the Principal Towns with similar particulars for Belfast and Derry.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office

To be purchased through any Bookseller or directly from
THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN 1.

No. 46 VOL. C4. WEEK ENDED SATURDAY, 18th NOVEMBER, 1967. PRICE 2d. NET.

PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *Principal Towns*, i.e. the fourteen towns which had populations of over 10,000 at the date of the 1966 Census, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

The number of births registered during the week to persons normally residing in the principal towns was 394:- 217 boys and 177 girls.

The number of deaths registered of persons normally residing in the principal towns was 158, of which 97 were over 65 years. Of these deaths 29 were due to malignant neoplasms and 2 to tuberculosis.

There were 9 deaths of infants under one year registered; of these 6 were under 7 days and 1 from 7 to 27 days.

The total number of births registered during the week in the principal towns was 747:- 394 boys and 353 girls, of which 207 boys and 175 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 258, of which 123 were registered in Dublin County Borough.

Table 1 - Births and Deaths registered during the week ended Saturday, 18th November 1967, which were assigned to the Principal Towns with similar particulars for Belfast and Derry.

WEEKLY RETURNS OF BIRTHS AND DEATHS

FOR THE

PRINCIPAL TOWNS

Compiled by the Central Statistics Office

To be purchased through any Bookseller or directly from
THE GOVERNMENT PUBLICATIONS SALE OFFICE, G.P.O. ARCADE, DUBLIN 1.

NO.49 VOL.C4. WEEK ENDED SATURDAY, 9th DECEMBER, 1967. PRICE 2d.NET

PRINCIPAL TOWNS

Particulars of births and deaths recorded for the *PRINCIPAL TOWNS*, i.e. the fourteen towns which had populations of over 10,000 at the date of the 1966 Census, are given in Table 1. The figures for deaths shown in respect of each town relate to persons who normally resided in that town, while deaths of non-residents have been excluded. Similarly only the figures for births to mothers normally residing in each town are given in Table 1. Deaths classified by age and cause are shown in Table 2.

The number of births registered during the week to persons normally residing in the principal towns was 407:- 213 boys and 194 girls.

The number of deaths registered of persons normally residing in the principal towns was 221, of which 145 were over 65 years. Of these deaths 41 were due to malignant neoplasms and 1 to tuberculosis. Transport accidents caused 3 deaths.

There were 9 deaths of infants under one year registered; of these 5 were under 7 days.

The total number of births registered during the week in the principal towns was 780:- 405 boys and 375 girls, of which 185 boys and 191 girls were registered in Dublin County Borough.

The total number of deaths registered in the principal towns was 338, of which 161 were registered in Dublin County Borough.

Table 1. - Births and Deaths registered during the week ended Saturday, 9th December, 1967 which were assigned to the Principal Towns with similar particulars for Belfast and Derry.
